ItsMos.netlify.app

Veteran web developer, full stack, best at front end and making designs real as well as pixel perfect, I enjoy making web apps using Vue 3.

SKILLS

- HTML / CSS / JavaScript (ES6)
- Vue 3 / Vuex
- Vuetify
- Firebase
- MongoDB / Mongoose
- SQL

EXPERIENCE

Liberty City Roleplay, Remote – *Fullstack developer*

- Created a user control panel in vue, nodejs, express, mongodb.
- Also helped with the backend code for the game server.

EDUCATION

Computer Science Bachelor

Misr University for Science and Technology, 6th of October

2017 – 2021

Ive learned various topics such as ML, Android apps, algorithms, and system design.

Projects

Forums

A classical forum with threads/forums/users and other functionalities, it uses Vue 3 for the front end, as the build tool and firebase to make it serverless.

CSS Messenger Bot, Facebook Circles 2017 winner

You could ask the bot about CSS problems, and it suggests code.

Courses Taken

2014 – Stanford Online CS 101

2015 – TeamTreeHouse Web track

2017 – FreeCodeCamp front end and problem solving

2020 – Vueschool vue 3 masterclass
